EDUCATION

Howard University, CGPA: 3.87/4.00

August 2022 – May 2026

Program: Bachelor of Science, Electrical Engineering

Relevant coursework: Applied Data Science, Computer Science I & II, Persuasive Writing & Research

Student Organizations: CEA Executive Student Council, Bethel Campus Fellowship, NSBE, IEEE

TECHNICAL SKILLS

Programming Languages: Python, C++ , Golang, VHDL

Technologies: Microsoft Office, Pytorch, AWS EC2, Git, Matlab, React, Raspberry Pi, FPGA, Vivado, Jupyter Notebook

WORK EXPERIENCE

Machine Olfaction Researcher

Cambridge, Massachusetts

[Massachusetts Institute of Technology - MIT Media Lab](#)

June 2025 - Aug 2025

- Collected over 4 hours of multi-sensor time-series data on food mixtures using portable gas sensors.
- Trained ML models detecting peanuts in chocolate mixtures with ~80% confidence and ~42% rejection of non-peanut samples in real-time preliminary trials.
- Performed real-time odor classification using embedded hardware with low latency.

Machine Learning Research Intern

Cambridge, Massachusetts

[Massachusetts Institute of Technology - MIT LIDS](#)

June - Aug 2024

- Developed MultiSenseNet, a framework enabling multi-task learning across visual and textual modalities.
- Designed and trained CNN, LSTM, and fusion architectures to evaluate generalization across diverse ML tasks.
- Investigated transformer scalability and transfer learning to develop foundation models for renewable energy systems.

Software Engineer Intern

Cupertino, California

[Amazon Web Services \(AWS\)](#)

June - Aug 2023

- Developed command line tool for comparing performance metrics of ML models simultaneously, leading to a 400% increase in time savings.
- Optimized the display of performance metrics on a UI page, making comparison 4 times more efficient.
- Implemented unit tests to validate the functionality of my code and created design documentation for my work.

LEADERSHIP EXPERIENCE

President

Washington, DC

[Bethel Campus Fellowship - HU Chapter](#)

Sept 2023 - Present

- Lead a 6-member executive board to serve and support over 60 Howard students through Bible studies, and other community-building activities.
- Organized campus outreaches impacting 200+ students, fostering spiritual growth and community engagement.
- Secured over \$11,000 in funding to enable student attendance at the BCF National Conference, promoting leadership, service, and personal development.

Student Council Hackathon Coordinator

Washington, DC

[College of Engineering and Architecture \(CEA\)](#)

Aug 2023 – May 2024

- Orchestrated the successful participation of Howard students in hackathons, resulting in victories and recognition for their talents and innovations.
- Established strategic partnerships with other educational institutions to mitigate financial barriers, ensuring students had access to hackathon opportunities without transportation constraints.
- Collaboratively spearheaded the organization of Howard University's inaugural CEA hackathon, working with council members and stakeholders to create a platform for fostering innovation and skill development.

Student Council Intern

Washington, DC

[CEA Executive Board](#)

Oct 2022 - May 2023

- Successfully secured substantial financial support, amassing a remarkable \$40,000 through strategic partnerships with esteemed sponsor companies, subsequently allocating these funds to flawlessly orchestrate a wide array of engaging events.
- Collaboratively strategized with E-board members to ensure effective decision-making on behalf of the student council and student body, resulting in well-crafted and impactful policies.
- Participated in the planning and seamless execution of diverse events catering to over 200 faculty and students, generating thought-provoking and enriching experiences for our vibrant student community.

HONORS/AWARDS/ACHIEVEMENTS

Tau Beta Pi Engineering Honor Society Member (2025) | Dean's List recipient (2024) | Achievers Scholarship (2022) | inSTEM scholar
